URBAN

TERRAIN®

Surfaces Built for Performance

DESIGNED TO DELIVER MAXIMUM COMFORT AND PERFORMANCE

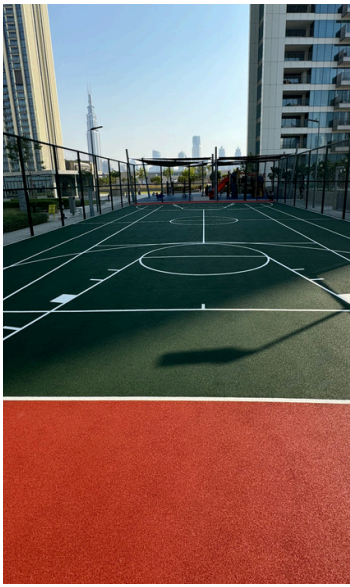

ABOUT **URBAN TERRAIN®**

At Urban Terrain, we specialize in delivering world-class sports and recreational flooring solutions across the UAE. From playgrounds and jogging tracks to multi-sport courts, fitness areas, and leisure zones, we provide turnkey installation services tailored to each project's needs.

Our strength lies in combining premium materials, skilled installation teams, and technical expertise to create surfaces that are safe, durable, and performance-driven. Every project from schools and community spaces to stadiums and commercial facilities is executed with a commitment to international standards of quality, safety, and playability.

From FIFA-standard football turf and ITF-certified acrylic courts to vibrant, impact-absorbing playground flooring, our solutions are designed to inspire activity, enhance performance, and stand the test of time.

SERVICE STRENGTHS BY **URBAN TERRAIN®**

TURNKEY SOLUTIONS

- Complete end-to-end flooring solutions: from design consultation to final installation.
- Site preparation, base works, and finishing included.
- Single-point responsibility — hassle-free execution.

SKILLED WORKFORCE

- Experienced, trained installation teams.
- Expertise across schools, stadiums, fitness centers, sports clubs, playgrounds, and leisure parks.
- Strict adherence to installation guidelines for quality and safety.

SALES & CLIENT SUPPORT QUALITIES

- Expert Guidance – Helping clients choose the right system with technical know-how.
- Dedicated Service – Responsive support from inquiry to project completion.
- Client-Centric Approach – Transparent communication and tailored solutions.
- Proven Reliability – Strong track record with long-term customer partnerships.

CUSTOMIZATION OPTIONS

- Wide range of colors, patterns, and designs.
- Logo inlays and branding for sports courts.
- Thickness and system adjustments for performance or budget needs.

PRODUCTS & MATERIALS USED

- Premium raw materials (EPDM granules, PU resins, acrylic coatings, artificial turf, wooden floorings).
- All products comply with international safety and performance standards (EN, ASTM, FIFA, ITF where relevant).

TECHNICAL EXPERTISE

- Knowledge of different base constructions (asphalt, concrete, compacted stone).
- Ability to design custom systems to match budget, usage, and performance requirements.
- On-site supervision by technical engineers.

PROJECT CAPABILITIES

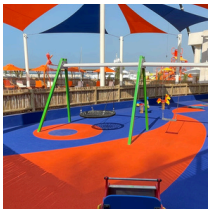

- Small-scale school courts to large stadiums and community complexes.
- Ability to manage tight timelines and phased projects.
- Proven track record of delivering projects across the UAE & GCC.

QUALITY ASSURANCE

- Compliance with international testing standards for slip resistance, shock absorption, ball bounce, and durability.
- Mock-up samples available before execution.
- Post-installation quality inspection.

TERRAIN PLAYSAFE

SAFE, COLORFUL, IMPACT-ABSORBING PLAYGROUND FLOORING.

SERVICE DESCRIPTION

Terrain Playsafe EPDM Wetpour system is a poured-in-place rubber flooring system ideal for playgrounds, recreational spaces, and safety zones. Made from high-quality EPDM granules mixed with polyurethane binder, it offers a seamless, slip-resistant, and impact-absorbing surface. Available in a wide range of colors and patterns, it can be customized to suit any theme.

APPLICATION

- Playground flooring
- Schools & nurseries
- Outdoor recreation areas
- Safety surfacing for residential and commercial projects

KEY BENEFITS

Long-lasting, low-maintenance

Excellent impact absorption

UV and weather-resistant

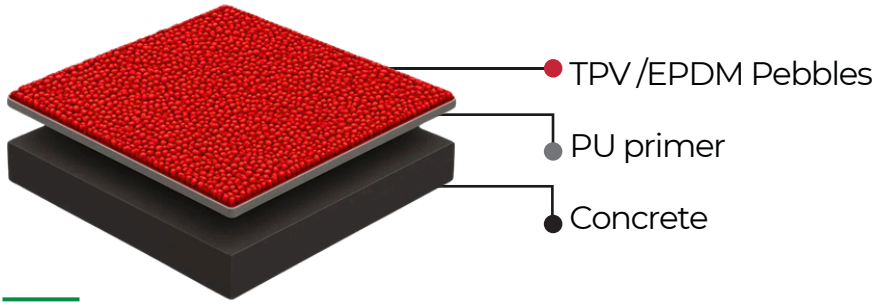

Customizable Designs

CERTIFIED FOR IMPACT (HIC) EN 1177

TERRAIN AQUASAFE

SOFT, SLIP-RESISTANT SURFACING FOR WATER PLAY & POOLSIDE SAFETY.

SERVICE DESCRIPTION

Our AquaSafe system delivers more than safety flooring. With precision installation and premium TPV granules, we guarantee surfaces that remain vibrant, chlorine-resistant, and impact-absorbing for years. We bring expertise in seamless applications that meet international safety standards, making every splash area both durable and child-friendly.

APPLICATION

- Water parks
- Poolside areas
- Splash pads in parks and resorts
- Swimming pool flooring

KEY BENEFITS

Slip-resistant in wet conditions

Cushioned for fall protection

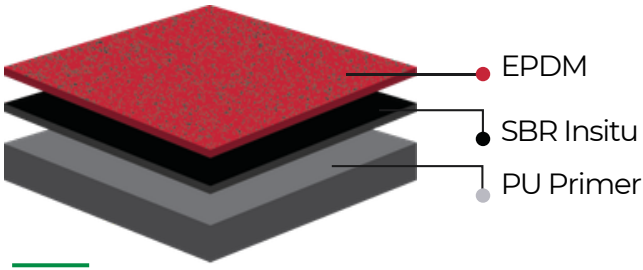

UV and Chlorine-resistant

CERTIFIED SURFACES EN 13451

EPDM FOR GYMS

SAFE, COLORFUL, IMPACT-ABSORBING GYM FLOORING.

SERVICE DESCRIPTION

Terrain EPDM Gym Flooring provides a seamless, textured, and impact-absorbing surface made from premium EPDM granules bound with polyurethane. Designed for strength and versatility, it's ideal for sled tracks, weight zones, and multipurpose gym areas. With customizable thickness, colors, and designs, this system delivers exceptional grip, durability, and safety perfect for both commercial and home gyms.

APPLICATION

- Strength and free-weight zones
- Sled tracks and CrossFit areas
- Functional and circuit training zones
- Home gyms and boutique fitness studios
- Areas requiring enhanced grip and traction

KEY BENEFITS

Long-lasting, low-maintenance

Excellent impact absorption

Textured, anti-slip surface ideal for heavy equipment areas

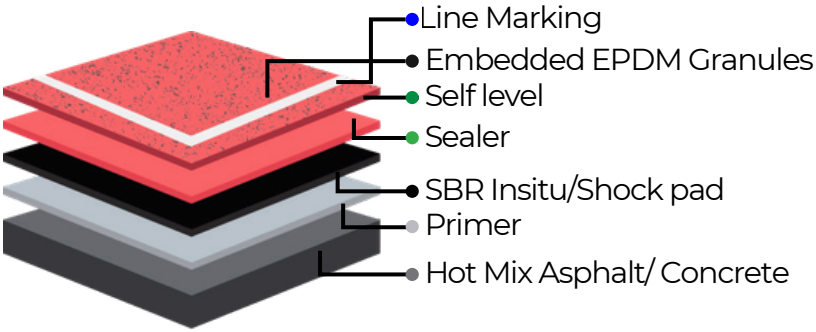

Customizable Designs

CERTIFIED FOR IMPACT (HIC) EN 1177

RUNNING TRACK SYSTEMS FOR ATHLETICS

HYBRID RESILIENT SYSTEM COMBINING COMFORT AND HIGH PERFORMANCE.

SERVICE DESCRIPTION

The Sandwich System is installed with Stockmeier's high-quality polyurethane layers, creating a durable, high-performance running track surface. It offers excellent shock absorption, force reduction, and spike resistance, making it a top choice for competitive athletics. Our installation expertise ensures exact compliance with certified system procedures, so every track delivers consistent, competition-ready performance.

APPLICATION

- Professional athletics tracks
- Multi-sports facilities
- School sports grounds

KEY BENEFITS

Excellent shock absorption

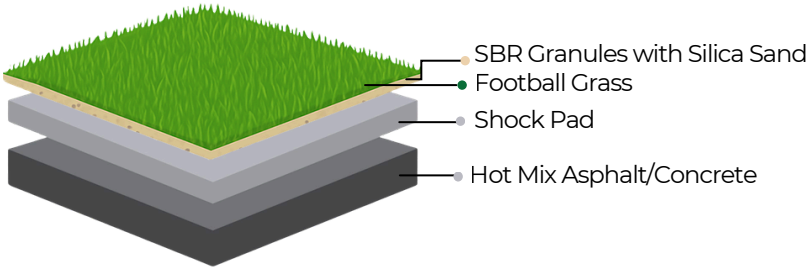

UV and weather-resistant

Low life-cycle cost

ARTIFICIAL TURF FOR FOOTBALL

FIFA-STANDARD ARTIFICIAL GRASS ENGINEERED FOR TOP FOOTBALL PERFORMANCE.

SERVICE DESCRIPTION

Our FIFA certified artificial turf systems are enhanced with EU-standard backing and infill materials sourced from EU supplier, ensuring UV stability, weather resistance, and superior player comfort. Designed for natural ball roll and shock absorption, these pitches are suitable for training and competition. With precision installation by our certified teams, we guarantee even surfaces, proper drainage, and systems that meet international football standards.

APPLICATION

- Professional and amateur football fields
- School and community pitches
- Indoor or Outdoor football facilities

KEY BENEFITS

All-weather playability

Durable for heavy usage

Minimal maintenance compared to natural grass

ARTIFICIAL TURF FOR MULTI SPORTS

SERVICE DESCRIPTION

At Urban Terrain, we go beyond football turf our expertise extends to professional artificial turf systems for a wide range of sports, including rugby, cricket, Gaelic football & hurling, tennis, hockey, croquet, golf, polo, ultimate frisbee, and touch/tag rugby.

We work with quality raw materials and advanced turf technologies that deliver consistent performance, natural playability, and long-lasting durability. Each system is customized to the sport's unique requirements.

What makes us different is our installation capability, we manage every detail ensuring surfaces meet international sporting standards. With meticulous attention to detail and technical know-how, we deliver fields that are safe, reliable, and built for peak performance no matter the game.

APPLICATION

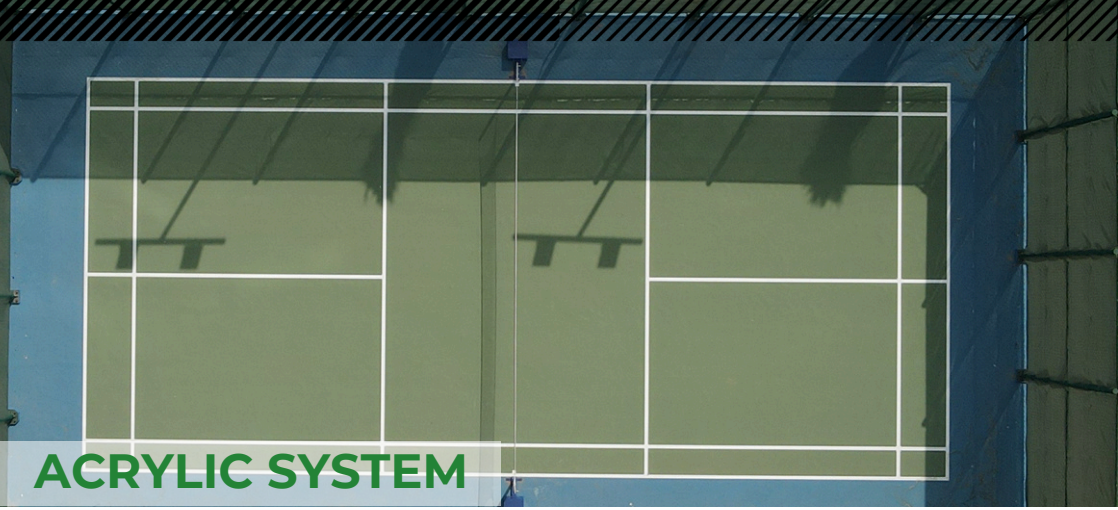

- Rugby Pitches (full-size and training grounds)
- Cricket Grounds (outfields, practice nets, and pitches)
- Gaelic Football & Hurling Fields
- Tennis Courts (singles and doubles)
- Croquet Lawns
- Golf Surfaces (driving ranges, putting greens, mini-golf)
- Polo Fields
- Ultimate Frisbee Fields
- Touch Rugby / Tag Rugby Areas
- Multi-sport Recreational Zones

KEY BENEFITS

All-weather playability

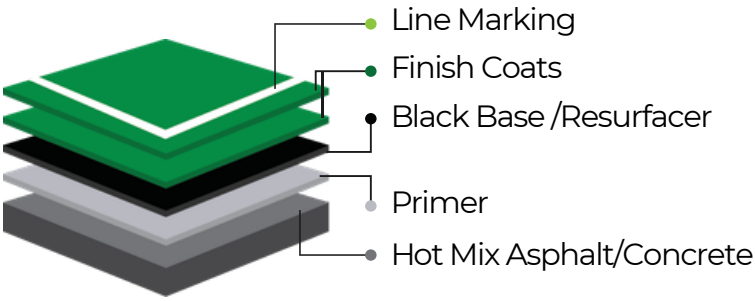

Durable for heavy usage

Minimal maintenance compared to natural grass

ACRYLIC SYSTEM

STANDARD ACRYLIC SPORTS FLOORING FOR DURABILITY AND VIBRANT PLAY

SERVICE DESCRIPTION

Engineered with high-quality European acrylic coatings, the Acrylic Standard System offers excellent playability and surface uniformity for tennis, basketball, and multi-use courts. This system is built for cost-effective durability without compromising on performance. Backed by our installation expertise, we ensure a smooth, seamless finish that meets international standards and maximizes value for every project.

APPLICATION

- Tennis courts
- Basketball courts
- School sports court

KEY BENEFITS

Weather-resistant and UV-stable

Low-maintenance

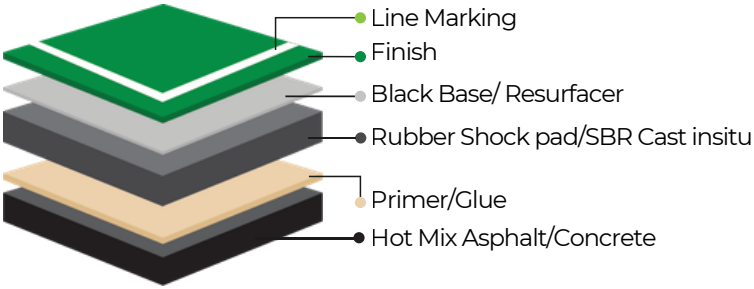

High performance for multiple sports

ITF International Tennis Federation

CUSHIONED ACRYLIC SYSTEM

CUSHIONED ACRYLIC SYSTEM FOR ENHANCED COMFORT AND REDUCED IMPACT.

SERVICE DESCRIPTION

The Acrylic Comfort System combines premium-grade acrylic material with an elastic base layer to deliver enhanced cushioning and athlete comfort. This makes it ideal for multi-use courts and schools where impact absorption matters. With our team's system- installation methods, every layer is applied with precision, ensuring the court delivers consistent grip, color vibrancy, and longevity.

APPLICATION

- Tennis courts
- Basketball courts
- Multi-use game areas

KEY BENEFITS

Enhanced player comfort and shock absorption

Vibrant, fade-resistant colors

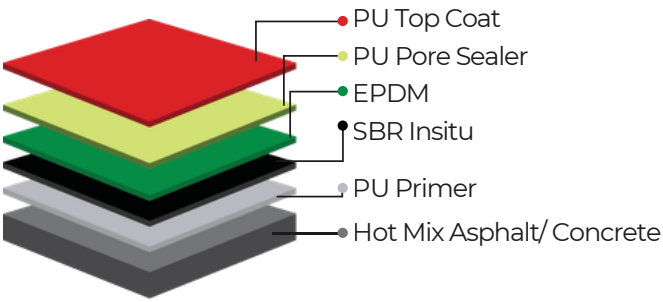

Suitable for both indoor and outdoor use

ITF International Tennis Federation

POLYURETHANE JOGGING TRACK

PREMIUM SELF-LEVELING PU TRACK FOR SMOOTH, HIGH-PERFORMANCE RUNNING.

SERVICE DESCRIPTION

Our jogging track systems are built using EU-quality polyurethane materials ensuring superior elasticity, UV resistance, and long-term durability. Designed to withstand high usage and harsh climates, these tracks maintain comfort and resilience over time. What sets us apart is our installation expertise, guaranteeing consistent thickness, flawless surface finishing, and reliable performance track after track.

APPLICATION

- Athletic stadiums
- Parks and recreational jogging paths
- School and university tracks

KEY BENEFITS

Long lifespan with minimal maintenance

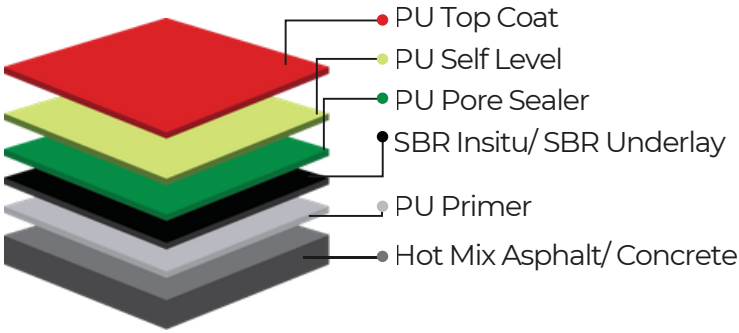

Superior shock absorption

Excellent foot comfort and energy return

POLYURETHANE FOR MUGA COURT

VERSATILE PU SYSTEM FOR MUGA COURTS (BASKETBALL, VOLLEYBALL, HANDBALL & MORE)

SERVICE DESCRIPTION

Our MultiSports PU systems are designed for versatility, using EU-certified polyurethane materials for resilience, grip, and consistent ball response. Suitable for basketball, volleyball, tennis, and more, these courts are engineered to balance performance across multiple sports. With expertise in installation techniques, we deliver multi-layer systems tailored to each project's requirements guaranteeing long-lasting playability.

APPLICATION

- Indoor & outdoor sports halls
- School and community sports courts
- Multi-activity centers

KEY BENEFITS

Long-lasting under intense use

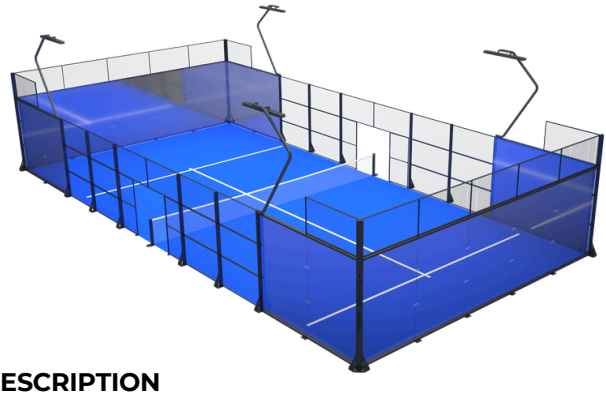

Customizable in colors and markings

Excellent slip resistance

TERRAIN PADELX

DURABLE, HIGH-QUALITY PADEL COURTS BUILT FOR SUPERIOR PLAYABILITY.

SERVICE DESCRIPTION

We bring together precision engineering, premium materials, and unmatched expertise to deliver world-class padel court systems. Designed for both performance and durability, our courts meet international standards and are built to withstand intensive use.

APPLICATION

- Professional padel clubs
- Private villas & Residential sports areas
- Multi-sport complexes
- Community sports complexes
